

# Lee Cole

*brings you*

## *MAGICOMEDY*

### **LAUGHTER**

*Your guests are in for a big surprise! They'll see the classics of magic, but this is not your grandfather's magic show! What appears to be a straight forward show is really a comedy of errors. As the show progresses, the mishaps become more surprising, bigger and funnier. For example, the famous Cut and Restored Rope Trick includes a jaw-dropping surprise that involves your boss, his tie and a pair of scissors!*

### **Magic**

*In addition to the comical mishaps, the show is filled with truly amazing magic...it's just not always the trick that was started! After a few comically feeble attempts at rectifying the situation, your guests will think they saw real magic when their boss's tie is magically restored before their very eyes! Your guests will love this **original** situation comedy that puts the fun in **dysfunctional**! If you like magic, you'll like this show, if you don't like magic, you'll LOVE this show.*

### **Involvement**

*Most magic shows are about props; this show is about people - your people. You'll be surprised and delighted at how your guests react when they become a part of Lee's comical misadventures. Volunteers who are brought on stage are always treated with respect. The routines are designed so that they can relax, laugh, and have a great time too. The audience laughs at the accident prone magician, the funny turn of events, and the volunteer's surprise.*

### **Professional**

*You can book with confidence because this show is ALWAYS in good taste. There is no profanity or off-color jokes. Your group will have a **positive experience** as this act demonstrates the benefits of maintaining a sense of humor in the face of adversity. Your group will stand and applaud the show's funny and patriotic ending.*

*Lee has been entertaining for more than 20 years and has the experience to make your event a success!*
