

## *Flash Cadillac*

*Traditional Rock 'n' Roll since 1969*

It started in Colorado in 1969! After one year, we relocated to Los Angeles. Soon we were working with record labels, doing television shows, and touring endlessly.

Most people probably know us from the 70's - mainly from *American Graffiti*, *Apocalypse Now*, *Happy Days* and tons of live dates. By the end of that decade, we were back in Colorado recording in our own studio!

Since 1983, we've been on the radio doing program music for Mike Harvey and SUPERGOLD...it's live every Saturday night on hundreds of radio stations across the country.

In the 90's, we added brand new audiences by playing with symphony orchestras. With each new orchestra we become the world's largest rock and roll band for a night!

Bad times and changes have touched the band, but the integrity has been kept with talented, enthusiastic musicians and we're busier than ever!

Our shows are a real *blast from the past*, “*America's Premier Party Band*”! Please call today to check availability for your event!
