

# Tom Wright

Tom Wright is a storyteller - a painter of sorts...painting pictures in your mind's eye from memories of a different time - when the pace was slower.

For more than 30 years, Tom's band, The Wright Brothers, has entertained audiences across the country. They've shared the stage with superstars including Trisha Yearwood, Lee Greenwood, Dolly Parton, Bob Hope, and Willie Nelson. The band performed the soundtrack and appeared in the hugely popular film *Overboard*, starring Goldie Hawn and Kurt Russell. The Wright Brothers placed nine singles on the Billboard Charts including their patriotic hit, *Made in the U.S.A.*

As a speaker, Tom shares his memories about growing up in French Lick, Indiana, touring the country with his band, making the decision to end the non-stop cross-country schedule, ending the dream of national recording fame, and realizing life's true priorities.

Tom has come full-circle - back to his roots - back to family. With his special humor and soothing, melodic voice, Tom relates "small town values" and stories from the heart. Your audience will laugh and maybe shed a tear. For sure, they will be reminded of what is really important in life.
